

1.) Insert the first file that you want to compare.
Click: Insert File 1.

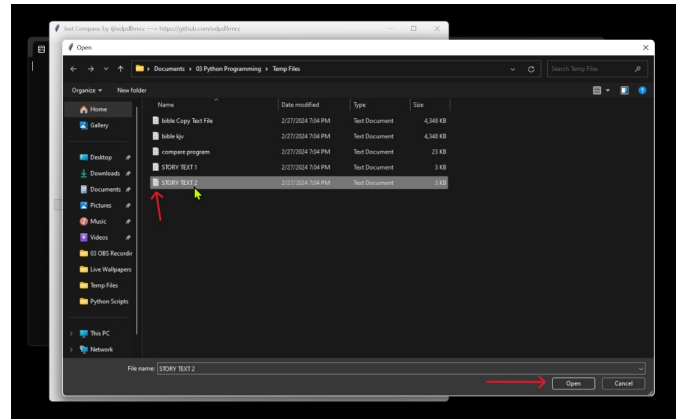

2.) Locate the first file. Navigate through Windows
File Explorer:

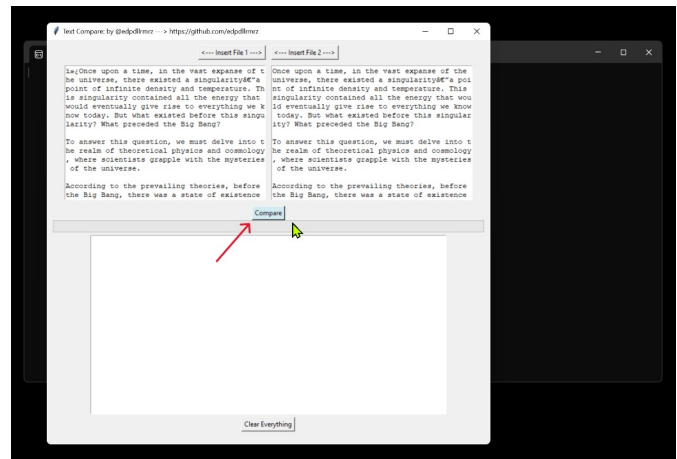

3.) Your text will appear in the first Window. Next,
insert the second file that you want to compare.
Click: Insert File 2.

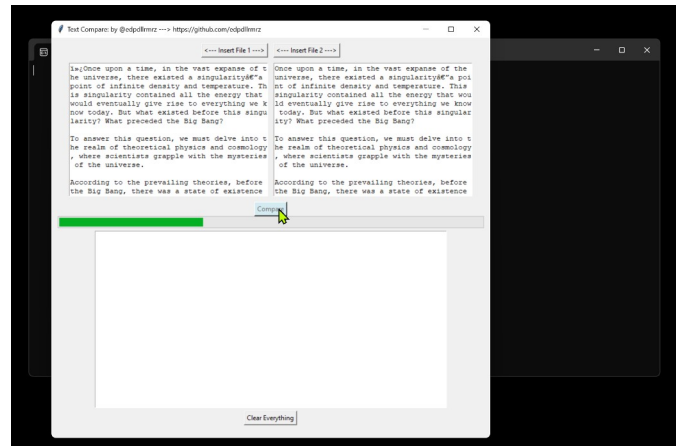

4.) Locate the second file. Navigate through Windows File Explorer. Click Open.

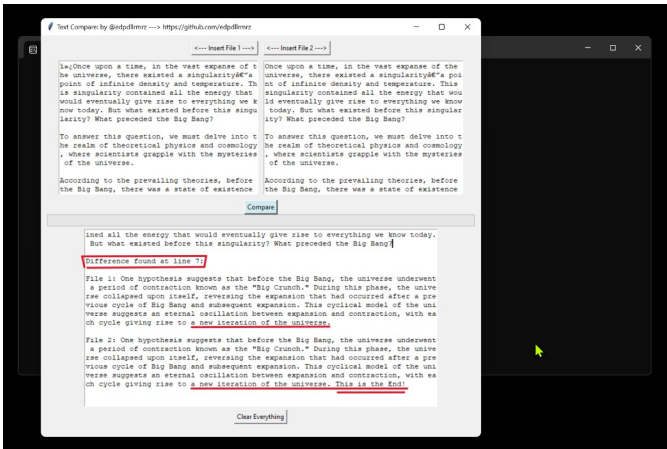

5.) Now that the two file windows are filled with the text that you will be comparing, Click the blue button. Click Compare:

6.) Program is analyzing and processing your text files, looking for comparisons.

7.) The program produces your results. Read for details.

8.) You can scroll through your text files. When you are done click: Clear Everything.

All is cleared from the program and you are ready to do a new comparison.
